Data Retention Policy

Overview

Introduction

This policy sets out how Ealing Choral Society will approach data retention and establishes processes to ensure we do not hold data for longer than is necessary.

It forms part of Ealing Choral Society Data Protection Policy.

Roles and responsibilities

Ealing Choral Society is the Data Controller and will determine what data is collected, retained and how it is used. The Data Protection Officer for Ealing Choral Society is the Chairman who, together with the Trustees, is responsible for the secure and fair retention and use of data by the society. Any questions relating to data retention or use of data should be directed to the Data Protection Officer (Chairman).

Regular Data Review

A regular review of all data will take place to establish if Ealing Choral Society still has good reason to keep and use the data held at the time of the review.

As a general rule a data review will be held every 2 years and no more than 27 calendar months after the last review. The first review took place in May 2018 and the second review in May 2020.

Data to be reviewed

- Ealing Choral Society stores data on digital documents (e.g. spreadsheets) stored on personal devices held by committee members.
- Physical data stored at the homes of committee members.

Who the review will be conducted by

The review will be conducted by the Data Protection Officer with other Committee Members to be decided on at the time of the review.

How data will be deleted

- Physical data will be destroyed safely and securely, including shredding.
- All reasonable and practical efforts will be made to remove data stored digitally.
 - Priority will be given to any instances where data is stored in active lists (e.g. where it could be used) and to sensitive data.
 - Where deleting the data would mean deleting other data that we have a valid lawful reason to keep (e.g. on old emails) then the data may be retained safely and securely but not used.

Criteria

The following criteria will be used to make a decision about what data to keep and what to delete.

Question	Action	
	Yes	No
Is the data stored securely?	No action necessary	Update storage protocol in line with Data Protection policy
Does the original reason for having the data still apply?	Continue to use	Delete or remove data
Is the data being used for its original intention?	Continue to use	Either delete/remove or record lawful basis for use and get consent if necessary
Is there a statutory requirement to keep the data?	Keep the data at least until the statutory minimum no longer applies	Delete or remove the data unless we have reason to keep the data under other criteria.
Is the data accurate?	Continue to use	Ask the subject to confirm/ update details
Where appropriate, do we have consent to use the data. This consent could be implied by previous use and engagement by the individual.	Continue to use	Get consent
